

# SOCIOLOGY MAJOR: COMMUNITY HEALTH EMPHASIS (WITH A 3+2 MASTER OF BEHAVIORAL SCIENCE IN RURAL COMMUNITY HEALTH)

## Sociology Major: Community Health Emphasis With 5-year Master of Behavioral Science (MBS) in Rural Community Health

The Community Health Emphasis in SOC allows students to complete an undergraduate degree in SOC with an emphasis in Community Health and a Master of Behavioral Science (MBS) degree in Rural Community Health within five years. The Community Health emphasis in SOC requires particular courses (e.g., in medical sociology, independent study, research methods, and statistics) that prepare students for success in the MBS program. To remain qualified for this accelerated pathway, before the start of Year Four each student must have:

- maintained a 3.0 cumulative GPA and a 3.3 GPA within the Sociology Major
- completed two natural science courses (with lab), and one statistics course, with a grade of B or above in the statistics course
- fulfilled the 3-credit SOC 399: Internship requirement with a passing grade and a positive letter from the project sponsor
- listed two references
- written a Statement of Purpose to the MBS program that includes detail regarding academic and career ambitions and feasible ideas or plans regarding their eventual completion of MBS 699: Community Health Practicum

At this point, if any aspect of a student's performance is found to be inadequate, the MBS Director may reject a student from the MBS program, in which case the student must find a new emphasis or minor so they can complete the undergraduate degree. In addition to meeting the requirements above, and after Junior Year and completion of SOC Major requirements, students will be designated as "MBS candidates with provisional acceptance." Upon completion of the final credits toward the B.A. degree and after year four of this plan, students will be designated as "MBS degree-seeking students." Students who choose not to continue with the MBS after Year 4 of the accelerated program, but who successfully completed all other requirements of the program, will still have completed the undergraduate SOC degree with the Community Health Emphasis and earned the 120 credits necessary for an undergraduate degree.

A minimum of 57 credits is required for B.A. components of the Community Health Emphasis.

Code	Title	Credits
All of the following:		
SOC 101	Introduction to Sociology (GT-SS3)	3
SOC 211	Quantitative Research Methods	3
SOC 225	Self and Society	3

SOC 302	Origins of Sociological Theory	3
SOC 310	Qualitative Research Methods	3
SOC 322	Sociology of Health, Illness, and Medicine	3
SOC 355	Drugs and Society	3
SOC 380	Social Class, Status, and Power	3
SOC 399	Internship in Sociology	3
SOC 498	Capstone	3
One of the following:		3
ANTH 107	Introduction to General Anthropology	
PSY 100	General Psychology (GT-SS3)	
One of the following:		3
ANTH 355	Medical Anthropology	
PSY 368	Psychopathology	
PSY 369	Health Psychology	
One of the following:		3
SOC 150	Environmental Sociology	
SOC 168	Social Problems	
SOC 259	Introduction to Criminal Justice	
SOC 320	Sociology of Families	
SOC 340	Social Movements	
SOC 350	Deviance	
SOC 351	Juvenile Delinquency
